SUMMARY

A versatile Full Stack Developer trained at Loctech Training Institute and self-driven through independent study. Proficient in building modern, responsive web applications using the **React/Next.js** ecosystem and **Django** backends. Passionate about clean code, intuitive UI, and solving complex architectural problems. Seeking a Full Stack Developer role or Internship to contribute to high-impact projects.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, Tailwind CSS, HTML5, CSS3, JavaScript (ES6+).
- **Backend:** Django, Python, REST APIs, PostgreSQL/SQLite.
- **Tools:** Git/GitHub, Vercel, Postman, Figma.

KEY PROJECTS

News Aggregator Web App | *React, Tailwind CSS, NewsAPI*

- Built a real-time news platform that pulls data from multiple global sources.
- Implemented custom search filters and category-based navigation.
- Designed a clean, mobile-responsive UI using Tailwind CSS for a seamless reading experience.

Task Tracker Backend (Jira/Trello Style) | *Django, Python, Django REST Framework*

- Architected a robust backend for project management, featuring user authentication and task CRUD operations.
- Designed a relational database schema to handle workspace-to-user mappings and task priorities.
- Developed API endpoints for task assignment, status updates, and deadlines.

EDUCATION & TRAINING

Full Stack Web Development Program

Loctech Training Institute, Port Harcourt

- Intensive training covering Frontend and Backend technologies with a focus on industry standards.

Secondary School Leaving Certificate (SSCE)

Nazareth Montessori Schools, Woji, PH

SOFT SKILLS

- **Problem-Solving:** Strong ability to debug complex issues across the full stack.
- **Adaptability:** Skilled at picking up new frameworks (like the jump from React to Next.js).
- **Communication:** Able to explain technical concepts clearly (developed through tutoring and peer review).
